MCP4250 Series（Gauge）

MCP4250GP

port 1　Gauge

PRODUCT FEATURES

- Range of measurement：0~250 kpa(0~36.3 PSI)
- The voltage output：0.204~4.909V
- The maximum error from 0℃ to 85℃ is 1.5%
- Durable epoxy integrated components
- Temperature compensation：from -40℃ to +125℃
- Compared with the existing mixing module, the weight and volume are reduced

TYPICAL APPLICATIONS

Suitable for microprocessors or microcontroller based systems
