GD300

GD300 is an original electric soldering iron. It is a portable and easy-to-use electric soldering iron adopting the internal heating working mode with dual temperature sensor and extreme acceleration cooperate, reach the set the temperature only few seconds. OLED screen to display the parameter with large temperature adjustable range (80-420 degrees Celsius). It is the indispensable tools for electronic workers.

Features

1. Up to 65W power, 8S rapid heating
2. Uses USB-C interface and PD/QC protocol is supported
3. Aluminum alloy metal body, ergonomic design, good texture
4. PID precise temperature control
5. OLED HD screen, the working state of the soldering iron is clear at a glance
6. Automatic sleep/vibration sensing and other functions are available
7. Internal Heating design with dual temperature sensor

Product Details

1. Temperature control: 80-420 °C
2. Interface: USB type-C
3. Fast charging support: PD/QC protocol
4. Operating voltage: 5-20 V
5. Screen: 0.87" OLED (128x32 pixels)
6. Temperature unit: °C / °F
7. Language: English / Chinese
8. Handle size: 111x17x15 mm
9. Size of solder iron head: Length 100 mm, Diameter 5,5 mm
10. Length of whole machine: 171 mm
11. Overall weight: 37 g
12. Power: 65 W

GD300

Voltage	Current	Power	Tinizing
20 V	3,25 A	65 W	8s
15 V	2,5 A	37,5 W	12s
12 V	2 A	24 W	17s
9 V	1,5 A	13,5 W	30s

Multi Functions and Features

FAQ

1. **Is your price competitive enough?**
   We can not commit that our price is the lowest, but as a manufacturer that have been in charger products line for 7 years.
   We possess rich experience and we have the ability to control the cost.
   We will provide our customer cost-effective product, our product deserve this value.
   We can guarantee high quality products, so that you don't need to worry the safety..
2. **What is the warranty for the products**
   All our products have 12 months warranty.
3. **How does your company do regarding quality control?**
   Our QC team will do strict quality control inspection before shipment to assure best quality.
4. **Can I customized my order?**
   Yes, OEM/ODM service is available. Customized logo/package/name/color. For details, Please kindly contact the sales persons.
