User Manual – LDNIO Q367
65W GaN Super Fast Charger

1. Product Description

The LDNIO Q367 is a high-performance GaN charger with a total output of 65W, enabling fast and efficient charging of multiple devices simultaneously. Thanks to GaN (Gallium Nitride) technology, it is smaller, lighter, and more efficient than traditional chargers. Equipped with multiple outputs, including USB-C, it is universally compatible with smartphones, tablets, laptops, and other electronics.

2. Package Contents

- LDNIO Q367 GaN Charger
- Plug EU, US, UK
- Cable USB-C/USB-C 1m
- User Manual

3. Technical Specifications

- **Maximum Power:** 65W
- **Input:** 100–240V ~ 50/60Hz
- **Outputs:**
  - USB-C1: PD 65W
  - USB-C2: PD 65W
  - USB-C3: PD 65W
  - USB C1+C2=45W+20W 65W max
  - USB C1+C3=45W+20W 65W max
  - USB C2+C3=5V=3,6A 18W max
- **Material:** Durable and heat-resistant plastic
- **Protection Features:** Overvoltage, overheating, overload, and short-circuit protection

4. Usage and Safety Instructions

1. Plug the charger into a power outlet with right plug EU, UK, US.
2. Connect a charging cable to the appropriate port USB-C.
3. Connect your device to the charger and ensure it is charging correctly.
4. Disconnect the device from the charger once charging is complete.

Safety Precautions:

- Do not use the charger in extreme conditions (high temperatures, humidity).
- Do not connect devices that exceed the charger's maximum power capacity.
- Do not expose the charger to mechanical damage or water.
- If overheating unplug the charger immediately.

5. Storage and Maintenance

- Store the charger in a dry and well-ventilated place.
- Clean the surface of the charger regularly with a dry cloth.
- Do not use aggressive cleaning agents or solvents.

6. EU Importer
