MCP4250 Series（Differential）

MCP4250D

No port DifferentiaL

MCPA4250DP

PORT 2 DifferentiaL

PRODUCT FEATURES

- Range of measurement：0~250 kpa(0~36.3 PSI)
- The voltage output：0.204~4.909V
- The maximum error from 0℃ to 85℃is 1.5%
- Durable epoxy integrated components
- Temperature compensation：from -40℃ to +125℃
- Compared with the existing mixing module, the weight and volume are reduced

TYPICAL APPLICATIONS

Suitable for microprocessors or microcontroller based systems
